51 Tips On How To Get Lighter Skin Tone Naturally - VKOOL

Many people, especially women wish for a lighter, brighter, smooth and glowing skin. More and more of them are turning to skin lightening products to treat different skin conditions.

Skin Whitening Pills: 8 'Must-Have' Tips Before Going Oral

Human skin color ranges in variety from the darkest brown to the lightest hues. An individual's skin pigmentation is the result of genetics, being the product of both of the individual's biological parents' genetic makeup, and exposure to sun. In evolution, skin pigmentation in human beings evolved by a process of natural selection primarily to regulate the amount of ultraviolet radiation ...

Human skin color - Wikipedia

Light skin is a naturally occurring human skin color, which has little eumelanin pigmentation and which has been adapted to environments of low UV radiation. Light skin is most commonly found amongst the native populations of Europe and Northeast Asia as measured through skin reflectance. People with light skin pigmentation are often referred to as white or fair, although these usages can be ...
