jabiru engine problems pdf

Sonex Aircraft has worked with Jabiru Engines for many years. In particular, the 120 hp Jabiru 3300 has become a very popular engine choice for our aircraft, making-up approximately one third of the worldwide fleet of flying Sonex Aircraft.

Engine Options – Sonex Aircraft

Engine Options for the Zenith Aircraft kit designs. The two seat Zenith models are designed to provide attractive performance using efficient and lightweight new-generation aircraft engines, like the UL Power and Jabiru 3300, while also being suitable for traditional but heavier aircraft engines such as the Continental O-200 and Lycoming O-233 / 235.

Zenith Aircraft Company

Development. The Sonex plans contain several construction options, including conventional or tricycle landing gear, as well as a center or dual stick. Motor mount drawings are supplied for all three recommended powerplants: the 2180cc Volkswagen, 2200 Jabiru, and 3300 Jabiru.

Sonex Aircraft Sonex - Wikipedia

Despite its advantages push-pull configurations are rare in military aircraft. In addition to the problems noted for civil aircraft, the increased risk to the pilot in the case of a crash or the need to parachute from the aircraft also pose problems.

Design overview: The idea behind this project is to create a hardware platform for continuous development and improvement of the Engine Management System through software.

EMS - Experimental Avionics

The report says that inspections of Spars determined to be likely to have cracks will supply them with information as to why the cracks have developed around the lower bolt holes .

Cherokee Wing Spar AD - AvCom

Aircraft Fuel Injection/ EFI. EFI in the Experimental aircraft world is becoming the new "normal" today. While some people cling to 100 year old technology such as carbs, mechanical injection and magnetos, the fact is our aircraft EFI/EI can do the job better, with less pilot monitoring and less maintenance.
