Pacific island nations and associated states make up the top seven on a 2007 list of heaviest countries, and eight of the top ten. In all these cases, more than 70% of citizens age 15 and over are obese. A mitigating excuse argument is that the BMI measures used to appraise obesity in Caucasian bodies may need to be adjusted for appraising obesity in Polynesian bodies, which typically have ...

Assessment and feedback of cleaning performance is a critical part of environmental infection prevention. Traditionally, monitoring of cleaning has been accomplished by visual inspection of the area by environmental services management (Boyce, 2014). Several studies have questioned the accuracy of visual inspection compared to both microbiological sampling methods and non-microbiological ...

POLICE are appealing for help to trace this man following an assault on an Erdington-bound bus. A 29-year-old woman was travelling on the number 905 bus on Wednesday, December 16 when an unknown man sat next to her and punched her arm at around 6.50pm. The man caught the bus from Corporation Street in Birmingham city centre and got off at Gravelly Lane in Erdington.
